

Portable Heating, Venting and Drying Solutions

DF400**

- ▶ Runs on #1, #2 diesel, kerosene, JP-8, or Jet A fuel
- ▶ Simple easy-to-use control panel built with tough flameproof plastic
- ▶ Safety features include: overheat limit switch, pressure switch and "flame out" sensor
- ▶ Double-layered combustion chamber provides quiet operation and low surface shell temperature
- ▶ Preheated fuel filter with fuel gauge
- ▶ Optional thermostat available with 50' cord
- ▶ Optional fuel kit provides extended run times

DF600**

- ▶ Runs on #1, #2 diesel, kerosene, JP-8, or Jet A fuel
- ▶ Simple easy-to-use control panel built with tough flameproof plastic
- ▶ Safety features include: overheat limit switch, pressure switch and "flame out" sensor
- ▶ Double-layered combustion chamber provides quiet operation and low surface shell temperature
- ▶ Preheated fuel filter with fuel gauge
- ▶ Optional thermostat available with 50' cord
- ▶ Optional fuel kit provides extended run times

S405

- ▶ CSA approved for unattended operation
- ▶ MEA approved for use in New York City
- ▶ Light enough for one-man operation
- ▶ Dual fuel - quick changeover from propane to natural gas
- ▶ Air flow switch and High limit switch ensures safe operation
- ▶ Thermostat to conserve fuel
- ▶ Optional wheel kit
- ▶ Steel construction

950H/950HL

- ▶ Efficient motor reduces amp draw and is rated to run on standard 15 amp circuit
- ▶ Remote (50' long) thermostat with High/Low/Off control
- ▶ 12" wheels for easy handling
- ▶ Relays pull in and hold tight down to 95V
- ▶ Ductable up to 125 ft.
- ▶ Upgraded heater control board starts heater with low voltage down to 95V
- ▶ Potted control board minimizes moisture and vibration
- ▶ Diagnostic troubleshooting lights

Portable Heating, Venting and Drying Solutions

1800B / 1800BL

- ▶ Efficient motor reduces amp draw and is rated to run on standard 15 amp circuit
- ▶ Remote (50' long) thermostat with High/Low/Off control
- ▶ 12" wheels for easy handling
- ▶ Relays pull in and hold tight down to 95V
- ▶ Ductable up to 50 ft.
- ▶ Upgraded heater control board
 - Starts heater with low voltage down to 95V
 - Potted control board minimizes moisture and vibration
 - Diagnostic troubleshooting lights

S1505B

- ▶ Efficient motor reduces amp draw and is rated to run on standard 15 amp circuit
- ▶ Remote (15' long) thermostat with High/Low/Off control
- ▶ Relays pull in and hold tight down to 50V
- ▶ Upgraded heater control board
 - Starts heater with low voltage down to 95V
 - Built-in diagnostics
 - Runs stable when voltage drops down to 83V
 - Potted control board minimizes moisture and vibration
 - Rated to -40°F

2730C

- ▶ Safe fuel shutdown if combustion air is interrupted
- ▶ Low housing temperature
- ▶ May be ducted up to 200 feet
- ▶ Safe monitoring of combustion, two-trial electronic ignition with 20-second pre-purge time delay and 7-second shutdown
- ▶ Direct wire with easy, safe 100% power shut off
- ▶ Protects heater by shutting down if unit is being overfired
- ▶ Helps in diagnosing specific gas flow problems
- ▶ Protects heater by shutting down if voltage is too low
- ▶ Easy monitoring of control voltage to ensure trouble-free operation
- ▶ Automatically cycles the heater high on/off

3050C

- ▶ Safe fuel shutdown if combustion air is interrupted
- ▶ Low housing temperature
- ▶ May be ducted up to 300 feet
- ▶ Safe monitoring of combustion, two-trial electronic ignition with 20-second pre-purge time delay and 7-second shutdown
- ▶ Direct wire with easy, safe 100% power shut off
- ▶ Protects heater by shutting down if unit is being overfired
- ▶ Helps in diagnosing specific gas flow problems
- ▶ Protects heater by shutting down if voltage is too low
- ▶ Easy monitoring of control voltage to ensure trouble-free operation
- ▶ Automatically cycles the heater high on/off

Portable Heating, Venting and Drying Solutions

4210C / 4215C** / 4220C****

BENEFITS

- ▶ Safe fuel shutdown if combustion air is interrupted
- ▶ May be ducted up to 400 feet
- ▶ Safe monitoring of combustion, two-trial electronic ignition with 20-second pre-purge time delay and 7-second shutdown
- ▶ Direct wire with easy, safe 100% power shut off
- ▶ Protects heater by shutting down if unit is being overfired
- ▶ Helps in diagnosing specific gas flow problems
- ▶ Protects heater by shutting down if voltage is too low
- ▶ Easy monitoring of control voltage to ensure trouble-free operation
- ▶ Automatically cycles the heater on/off
- ▶ Indoor/outdoor usage

FEATURES

- ▶ Air flow switch
- ▶ Ductable
- ▶ Flame safeguard control
- ▶ Fused disconnect switch
- ▶ High limit switch
- ▶ Manifold pressure gauge
- ▶ Motor overload - manual reset
- ▶ Panel mounted voltage meter
- ▶ Remote thermostat
- ▶ Weather sealed control box
